

Make a piece of artwork to add to the gallery

Your artwork can be whatever you like, but here are some instructions you help you along:

1. Choose a piece of paper roughly the size and shape of a frame on the wall.
2. Draw your own dog character. It can be any type of dog at all. Think about what its personality might be, and what it might be called.
3. Draw where the dog lives. It could live in a train, under the sea, in a tiny house or an enormous castle - wherever you want.
4. Colour in your artwork until you are happy with it.
5. Stick your artwork on to the gallery wall, and make sure to add your name and the title of the art (this could be the dogs name and house location) underneath .
